

FOR IMMEDIATE RELEASE

**COUNTY BEGINS ECONOMIC
DEVELOPMENT STRATEGY UPDATE**

Vevay, Indiana. August 3, 2009 - The Switzerland County Economic Development Commission has begun the process of updating Switzerland County's Economic Development Strategy. The original strategy was written in 2004.

The strategy update includes extensive research in the economic climate in and around Switzerland County. Work on the strategy update has already begun and will continue throughout 2009. A successful plan will require input from across the community.

In late 2009 and early 2010, public meetings will be held to allow the entire community to participate in writing the community's economic development plan. The community will also be able to monitor the updated strategy's development online at www.switzerlandcounty.us
